

**4POINTZERO**

Finance Transformation  
for Growing Businesses

# We believe finance should facilitate the success of your entire business

- 01 Operations
- 02 Strategy
- 03 Cost control & Headcount

# When connecting your business...

## Finance:

1 Reduce time spent on manual tasks

2 Will have a greater connection to operations

3 Have access to real-time accurate data via integrations

4 Spend more time analysing the stats

# Operations:

- 1 Can communicate easier with finance
- 2 Keep on top of budgets in real-time
- 3 Understand how to remain competitive from granular reports

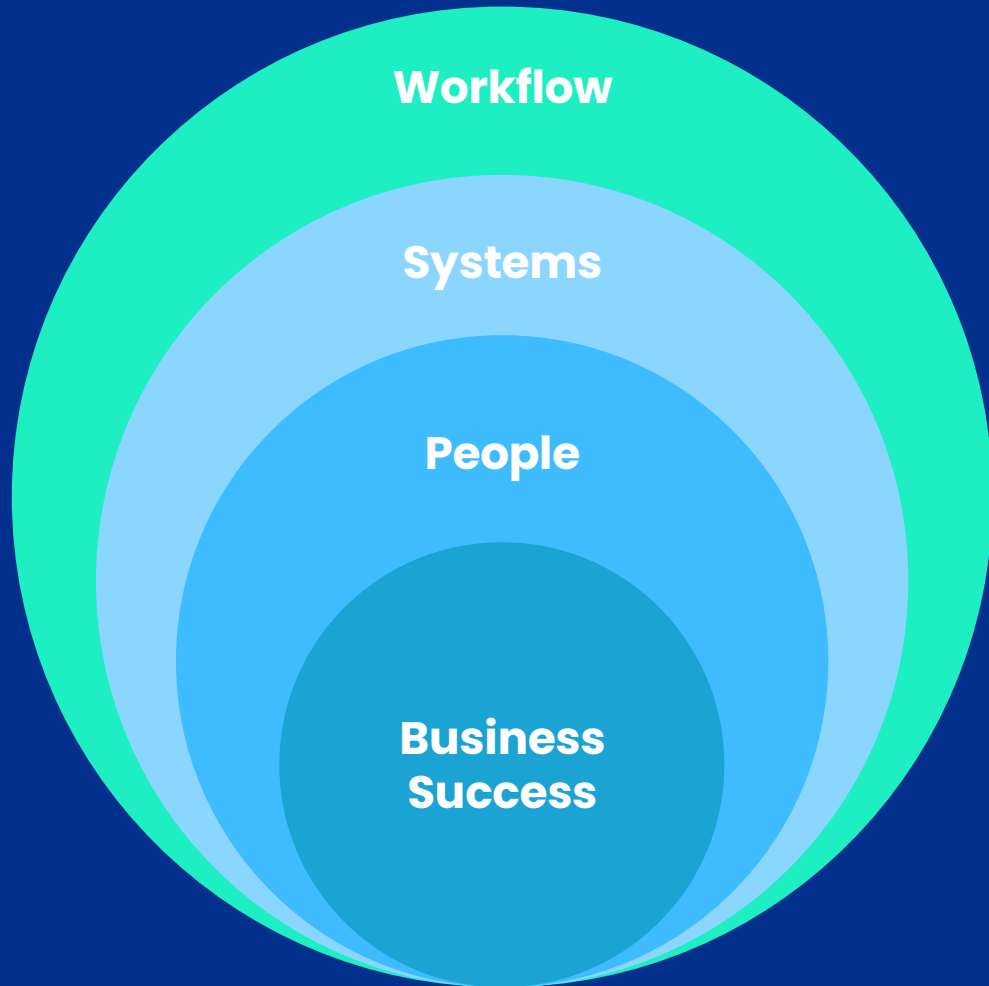

“Technology is best when it brings people together.”

– Matt Mullenweg

# You have a goal

## People

You need the right people with the correct knowledge to succeed

## Systems

These people need access to the right software for your business

## Workflow

The software needs to be used correctly for efficient usage

# How systems will get you there

## Improve efficiency

Spend less time on data entry with integrated systems

## Meet Deadlines

Understand deadlines across the business and work together to complete tasks

## Data integrity

With linked systems, everyone is using the same data. This will reduce communication issues

## Business understanding

Understand your business on a deeper level with real time financial dashboards

# We help you join the dots!

# How we can help

## Staff

Upskill and help staff with queries

## Reporting

Gain granular insights about your business performance

## Accounting

Accounting is made easy with integrations and accessible from our single sign-on portal

## Security

Improve your security with the management tools our single sign-on portal offers

# Discover the benefits...

## Time

Instantly gain time that would otherwise be spent on manual admin.

## Training

Upskill your team with our in-depth training courses.

## Expertise

Gain access to our team of accountants and software experts.

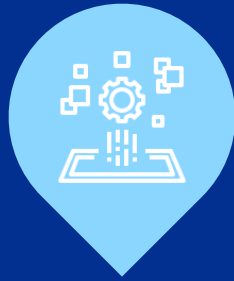

## Reporting

Understand your business and customers like never before with real time granular insights
